If you're going to jail anyway, you might as well succeed, right? Sometimes, the consequences are predictable, other times, they can be quite hilarious. The more problems you cause, the higher your chances of adding to your conviction. To attract the guard, you have to be within his line of fire. It's not as easy as you hoped, though, since the guard moves faster than you. You would also have noticed that it will be harder to get a decent job now that you have a criminal record. Feel free to choose the one that sounds the most fun to you. The crazier the method you choose, the more likely it is to fail. Choose your goals wisely One of the first criminal options you'll get in the new category is to commit murder. You are presented with a series of decisions during each year of your life. Of course, this does not guarantee that you will be able to go out, but it is worth a try. The game realized that it also takes skill, so the new upgrade now gives you a better chance of escape on purpose. First, Yoprisu can appeal the sentence. Keep in mind that you are a fugitive, so there will always be a risk of being caught again. Keep in mind that just because you chose to kill someone doesn't mean they're actually gonna die. There are also black lines indicating the walls on the sides of some squares. 3. 2. 4. There are crazy options available like the Atomic Wedgie. There is always a chance to fail, so be careful who you target. The jobs waiting for you would probably be something in the porn industry. Life After Prison If you manage to escape from prison, you could live a normal life, but it won't be as easy as before. It means any square that goes in one of the four cardinal directions. The guard can move two steps for every move you make, but he won't always do that.
